

Misurazione Anello

Note e Istruzioni

1) Stampate questo documento facendo attenzione che la stampa sia impostata al 100%.

2) Posizionate l'anello sulle varie circonferenze.

3) Scegliete la circonferenza il cui contorno è ben visibile. L'anello non deve sovrapporsi nascondendo la circonferenza né deve rimanere margine fra l'anello e la stessa.

Nota: Non posizionate il vostro anello direttamente sul monitor: questo sistema è efficace solo se il confronto avviene su un foglio stampato.

Ring Measurement

Notes e Instructions

1) Print this file at 100% pdf.

2) Position your ring on the different circles.

3) Choose the circle in which the border is visible. The ring should not cover the circumference nor does there have to be any space between the ring and the circle.

Note: don't place the ring directly on the monitor: this system is effective only if the comparison is done on the sheet of printed paper.

Mesures Anneau

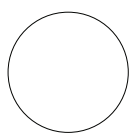

Notes e Instructions

1) Imprimez ce document à 100%.

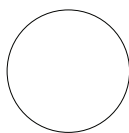

2) Positionnez votre bague sur les différentes circonférences.

3) La circonférence correcte pour votre bague est celle qui a un contour bien visible. La bague ne doit pas se superposer ni cacher la circonférence, et il ne doit pas rester de marge entre la bague et la circonférence.

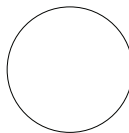

Note: ne positionnez pas votre bague directement sur l'écran de votre ordinateur: ce système fonctionne seulement lorsqu'il est effectué sur la carte.
